

HEBA KHATTAB

GEOSPATIAL INFORMATION CONSULTANT

Cairo, Egypt | +201006500368 | heba.khattab@outlook.com | LinkedIn: [linkedin.com/in/hebakhattab](https://www.linkedin.com/in/hebakhattab)

Professional Profile

Geospatial Information Professional (GISP) | with 20+ years of experience in data analysis, mapping, and spatial problem-solving. Multidisciplinary background spanning GIS, architecture, urban planning, and business administration, with extensive UN experience in humanitarian contexts. Recognized for precision, adaptability, and strong collaboration in delivering technically sound solutions.

Key Skills

- ArcGIS Pro, Remote Sensing, Spatial Data Analysis, Cartography, Python, R, AI & Machine Learning, Tableau, Story Maps, HTML, Microsoft Azure Fundamentals, AutoCAD, Canva, SSAFE, IFAK.
- Strong analytical skills with a proven ability to independently learn and adopt new tools and technologies as needed.
- Collaborative team player with strong organizational and time-management skills, able to manage multiple priorities effectively.
- Languages: Arabic (mother tongue), English (fluent, IELTS:8, LPE: level C)

Professional Experience

Program Policy Officer (GIS Officer) | 2025– Present

United Nations World Food Programme

Middle East, North Africa, and Eastern Europe Regional Office MENAEERO - Cairo, Egypt

Technology Division (TEC) TDY assignment:

- Supported the regional FoodStack initiative through system analysis, requirements clarification, and project management activities, helping translate operational needs into structured technical inputs.
- Applied Python and Google Earth Engine to conduct time-series analysis of arable lands in Armenia, supporting agricultural monitoring through a structured standalone analytical exercise.
- Supported corporate location alignment across WFP systems, improving spatial consistency, interoperability, and usability in collaboration with technical teams and data owners.
- Contributed to a multi-divisional geospatial discovery initiative, identifying shared needs and opportunities for more integrated use of GIS across programmes.

Vulnerability, assessment & mapping (VAM):

- Delivered standardized maps and visual products to support cross-unit communication and operational geographic needs.
- Applied remote sensing and advanced geospatial analysis to inform decision-making, program design, and emergency response.

- Strengthened regional geospatial capacity by promoting data standards, maintaining GIS and remote-sensing inventories, identifying data gaps, and providing technical support to GIS officers and focal points.

Senior GIS specialist | 2022– 2025

Investment Land Unit, General Authority for Investment and Free Zones (GAFI) - Cairo, Egypt

- Coordinated with government entities and private-sector stakeholders to address investors' requests and resolve issues related to investment lands.
- Developed proposals to improve workflows and streamline investment land allocation, including a comprehensive proposal to establish a dedicated GIS Department.

GIS Administrator | 2012 – 2020

National Command Center (NCC), Ministry of Interior (MOI) – Doha, Qatar

- Produced high-quality cartographic maps for web publication, including designing the main basemap style for the NJM emergency management application used at the National Crisis Center (NCC).
- Supported data processing and documentation workflows to ensure data consistency and readiness for operational use.
- Developed analytical maps and reports to support situational awareness and decision-making.
- Provided technical support and delivered hands-on training to GIS users, improving system use and adoption.

Senior GIS specialist | 2006 – 2012

Investment Land Unit, General Authority for Investment and Free Zones (GAFI) - Cairo, Egypt

- Led the technical delivery of a GIS-based Investment Land Management system, contributing to system design and tender preparation, including system requirements analysis, equipment planning, and capacity-building training.
- Coordinated with internal and external stakeholders, including government entities and private-sector partners, to ensure alignment, technical coherence, and timely delivery.

GIS Trainer/ Engineer | 2000 – 2006

Information Technology Institute (ITI), Information & Decision Support Center (IDSC)- Cairo, Egypt

- Delivered bilingual GIS training and supervised graduation projects, building strong technical and analytical skills among students.
- Strengthened quality assurance through internal audits and contributed to the development of the GIZA Investment Atlas web platform.

Education

- **Currently Enrolled in DBA Powered by SAS® Program**, Arab Academy for Management, Banking and Financial Sciences
- **Master's degree in urban planning**, Faculty of Engineering, Ain Shams University
- **Diploma in Geographic Information Systems**, Information Technology Institute (ITI), Cairo, Egypt
- **B.Sc. in Architectural Engineering**, Faculty of Engineering, Ain Shams University

Certification

- Microsoft certified: Azure AI Fundamentals
- ITIL Foundation Certificate in IT Service Management
- Certified GIS Professional (GISP), GIS Certification Institute
- ArcGIS 8.x ESRI Authorized Instructor
- Microsoft Certified Application Developer (MCAD)
